|  |  |  |  |
| :---: | :---: | :---: | :---: |
|  | Target | I can do it! | You can do it! |
| LNF | I can read and write numbers to 1 million and numbers to 3 decimal places. | $\because$ |  |
| L5 | I can order, add and subtract negative numbers. | $\because$ |  |
| LNF | I can use mental strategies to recall multiplication tables up to 10 x 10 and use to solve division problems. | $\because$ |  |
| $\begin{gathered} \text { LNF } \\ \text { L5 } \\ \hline \end{gathered}$ | I can multiply numbers and decimals by a multiple of 10 , e.g. $15 \times 30,1.4 \mathrm{~cm} \times 20$ | $\because$ |  |
| LNF | I can identify multiples of numbers up to 10 and the common multiples and factors of two numbers. | $\because$ |  |
| LNF | I can identify prime numbers and I know prime numbers below 20. | $\because$ |  |
| LNF | I can use understanding of simple fraction and decimal equivalences e.g. find $25 \%$ of 60 cm and know that this is equivalent to $1 / 4$ of 60 cm . | $\because$ |  |
| LNF | I can simplify fractions, find equivalent fractions and use these to add and subtract fractions. | $\because$ |  |
| $\begin{gathered} \mathrm{LNF} \\ \text { L5 } \end{gathered}$ | I can calculate percentage quantities based on 10\%, eg $20 \%, 5 \%, 15 \%$. | $\because$ |  |
| LNF | I can use simple ratio and proportion. | $\because$ |  |
| LNF | I cab use ratio to express two or more quantities in words. | $\because$ |  |
| LNF | I can state the proportion of a whole that each share represents, e.g. know that in a ratio of 1:3, 1 part is a quarter of the total. | $\because$ |  |
| LNF | I can add and subtract numbers using whole numbers and decimals. | $\because$ |  |
| $\begin{gathered} \mathrm{LNF} \\ \mathrm{L5} \end{gathered}$ | I can multiply 2- and 3-digit numbers by a 2-digit number. | $\because$ |  |
| $\begin{gathered} \text { LNF } \\ \text { L5 } \end{gathered}$ | I can divide 3-digit numbers by a 2-digit number. | $\because$ |  |
| LNF | I can add or subtract across zero using a number line, e.g-3+5, 4-6 | $\because$ |  |
| $\begin{gathered} \text { LNF } \\ \text { L5 } \end{gathered}$ | I can check answers using inverse operations or estimate using approximations. | $\because$ |  |
| LNF | I estimate by rounding to the nearest 10,100 or 1000 or whole number. | $\because$ |  |
| $\begin{gathered} \hline \text { LNF } \\ \text { L4 } \end{gathered}$ | I use the terms profit and loss in buying and selling activities and make calculations for this. | $\because$ |  |
| LNF | I make comparisons between prices and understand which is best value for money. | $\because$ |  |
| LNF | I can explore general statements through practical activities, e.g. that $a+a+a=3 a, 3 \times a=3 a$ and $a+a+a+b+b=3 a+2 b$ | $\because$ |  |
| LNF | I can simplify expressions involving the addition of one variable, e.g. $5 t+3 t=8 t$ | $\because$ |  |
| $\begin{gathered} \text { LNF } \\ \text { L5 } \end{gathered}$ | I can construct and solve one-step or two-step equations with whole number solutions. | $\because$ |  |
